iOS

CURRENT PROJECTS (2026)

ScrabbleWordsFinder.com

AI-powered Scrabble platform: 1000+ pages, streaming AI chatbot (Lex), 7 daily games, leaderboards, 15-tier badge progression, coaching PDFs, 335K-word dictionary solver. 19 releases in 3 weeks. [Tech Stack](#)

xConvert24.com

55+ free online tools & unit converters. Admin dashboard, click analytics, telemetry, 3-environment pipeline. Plus a published Chrome extension (Auto Button Clicker) on the Web Store.

CAREER HISTORY

Director & Solo Developer — XSOFTE LTD | Jun 2026 – Present

Building and shipping web products (Astro + Cloudflare Workers + AI). Full lifecycle: concept to production with automated testing and continuous deployment.

Software Development Manager — British Heart Foundation | Aug 2022 – Nov 2023

- Led Systems team (4 devs, blended onshore/offshore with Intive & Nagarro)
- Introduced SonarCloud, raised unit test coverage from 1.7% to 21%, introduced GitHub CoPilot
- PCI & Cyber Essentials certified; set up Nagarro outsourcing partnership
- Stack: SiteCore CMS, .NET, Docker, Azure

Software Development Manager — Splendid Unlimited | Apr 2022 – Jul 2022

- Managed 12-person blended team (UK + Brazil + China) building dApp Store for Cardano blockchain
- Stack: Strapi CMS, React, Node.js

Software Development Manager — Genomics England | Feb 2020 – Mar 2022

- 17 direct reports across multiple squads; grew team through active recruitment
- Genome sequencing pipeline (Bertha), Interpretation Portal, Panel App (open source)
- Set OKRs, improved velocity, ISO accreditation documentation
- Stack: Python, Django, Postgres, React, Cromwell, AWS

Software Development Manager — FreeWheel (Comcast) | Mar 2019 – Sep 2019

- 16 engineers across 2 teams (Campaign Lifecycle & Financial Integration)
- Ad buying/selling platform Adazzle: .NET, C#, SQL Server, React, TypeScript

VP of Engineering — Conversocial | Jun 2018 – Dec 2018

- 25 engineers; SaaS platform for social customer service (Facebook, Twitter, WhatsApp)
- Started outsourcing initiative; Scrum Master + Product Owner of Tech Stream
- Stack: Python, MySQL, React

**Director of Software Engineering — Elsevier (FTSE100)** | Mar 2015 – May 2018

- 45-person org, \$8M/yr budget for Research Data Management portfolio
- 3 products: Electronic Lab Notebook (Hivebench), Mendeley Data, Research Data Search
- Hired 25+ engineers; built microservices on AWS; ML/NLP content enrichment
- Stack: Java 8, Python, Scala, React, Solr, Kafka, Spark, Nifi, Docker, Chef, Terraform

**Development Manager — Reed Business Information / ICIS** | Mar 2007 – Mar 2015

- Led 35+ engineers across 5-8 teams; £16M program (Darwin) over 4 years
- Big Data platform (MarkLogic IDDN), editorial tools, AWS migration
- Outsourcing with ThoughtWorks, Valtech, EMC, Bleum, Nagarro
- SEO implementation across 5 RBI websites (ComputerWeekly, FlightGlobal, etc.)
- Stack: .NET, C#, React, MarkLogic, SSIS, xQuery

**Earlier Roles** | 1995 – 2006

Senior Developer at ScreePages & Paraspar (UK) | Project Leader at IndiaInfo.com | Developer at Advanced Technology Labs | IT Executive at Gillette India

**EDUCATION**

**GNIIT** — National Institute of Information Technology, Bangalore (1993-1998)

**B.Com** — Osmania University, Secunderabad (1992-1995)

**KEY STRENGTHS**

- Building & scaling engineering teams (4 to 45 people)
- Outsourcing management (India, China, Brazil, Eastern Europe)
- Agile delivery (Scrum Master, Kanban, XP, Lean)
- AI integration (LLMs, RAG, prompt engineering, streaming)
- Full-stack hands-on coding + architecture
- SEO, product strategy, budgeting (\$8M+)
